

DAY OF MOURNING

APRIL 28, 2014

184 workers in BC lost their lives in 2013 because of their work | approximately 1,000 workers across Canada.

It is time for negligent corporations, directors and executives to be held criminally accountable for the serious injuries and deaths of workers. The B.C. Federation of Labour and the United Steelworkers demand that the Government of BC utilize the Westray Law to achieve this. It is time to send a strong message to employers that the health and safety of their workers is their top priority.

Stop the Killing. Enforce the Law.

We invite you to stand beside us and the Vancouver and District, and New Westminister and District Labour Councils to remember all the workers who have lost their lives and to renew our commitment to fight for the living.

Monday, April 28, 2014
